The copy filmed here has been reproduced thanks to the generosity of:

Manuscript Division,
National Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Division des manuscrits,
Archives nationales du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

N.B. Mr. David Stansfield, Petit Cote, was awarded a premium for a Stallion imported by him, and recommended by the judges as a useful Horse for saddle or draft.

A very fine young Horse, thorough bred, and a Bull and Cow, imported by Commodore Barrie, having arrived in Montreal the day previous to the Cattle Show, the Commodore (by particular request) had the permission to have the stock taken to the Show, in order to afford an opportunity of judging the merit of particular breeds.

The young horse Daglic, rising two years old, bred by Commodore Barrie from a good blood as say in England, was declared by good judges to be an animal of the best promise (of the racing class) that has ever been introduced into this province.

The young Bull (one year old past) a cross between the Durham and Lancashire breeds, was considered to be the best of the age that has been imported to this country, and well adapted to the Upper Provinces, for which he is intended.

The Cow (four years old), of the Lancashire shorthorned breed, notwithstanding the colour (nearly white) being disapproved of, was a fine animal; and the size not being over large, was well calculated for this country.

It is much to be regretted, that persons bringing Stock to the Cattle Show, will not endeavour to conform to the rules of the Society—in have the several animals entered in the same class kept together, to afford a better opportunity to the judges to determine accurately the comparative merit of each. In Britain this rule is particularly attended to. The Stock would also appear to much better advantage than as the present practice—all ages, sexes, and sizes intermixed.—It is to be hoped, that at the next Show, this rule will be better attended to.

Some of the best Stock in the District that have obtained premiums at former Shows, were not exhibited this year—a rule of the Society disqualifying animals from obtaining the same premiums a second time; consequently, the first rate animals were not brought forward; but, notwithstanding this circumstance, the Show of Neat Cattle and Sheep was very gratifying.

The Show of Brood Mares, calculated for the Saddle, were not numerous; and this is the more extraordinary when there are so many fine Horses in the District of Montreal.

The Society's imported Ayrshire Bull was not sold; consequently, he remains with the Society for the use of the District.

There were some excellent pieces of Canadian manufactured Woollen Cloth exhibited.

The premiums, eighty in number, were paid, as awarded, in presence of the Committee.

By Order.

WM. EVANS, Secy. &c.
Montreal, 21st September, 1830.
